## READ CAREFULLY BEFORE COMPLETING THIS FORM

### Employer must complete the Work Experience Verification Form.

#### WORK EXPERIENCE VERIFICATION FORM REQUIRED

Registered unlicensed individuals, as part of renewing their registration, must provide verification of their employment by a licensed contractor or registered employer during the registration period. This form reports the verified hours and is adapted for use by unlicensed individuals registered to perform electrical, plumbing, and high pressure pipefitting work. The reason for verifying work hours each year along with renewing a registration is so the registered individual does not have to verify these hours when applying for a license examination. Verifying hours annually when renewing a registration enables the department to gradually qualify an individual for examination, which makes for quicker approvals.

#### Registered Unlicensed Individual

- Registration information is pre-printed on the form for the registered individual.
- The work period being verified is the 12-month registration period printed on the form.
- Address information printed on the form is the unlicensed individual's mailing address. Updates to the individual's personal or mailing address may be noted on the registration renewal form. Address changes may also be made using a form available online at [www.dli.mn.gov/cclcd.asp](http://www.dli.mn.gov/cclcd.asp).

#### Employer Information (mandatory information)

- Enter the employer's business name, address, license or registration number, contact's phone number, and email address. (NOTE: License number is mandatory, if business holds contractor license number.)
- Enter the employer's designated responsible individual's name and license number. The individual's license number must match what the department has on record as the designated responsible individual and license number.

#### Unlicensed Individual's Work Experience

- Provide exact dates of employment during the 12-month registration period (see dates printed on the verification form). Include the month, day, and year.
- Indicate whether the hours reported on the form are taken from payroll records; and if not, specify the other forms of documentation used to verify the individual's work experience.
- For each class of work identified, enter the actual hours the individual performed that class of work during the registration period. (Note: Blanks will be assigned 0 hours.)
- Enter the total number of plumbing work hours verified, which may not exceed 1,750 hours.

#### Certification Signature and Date

- The employer's designated responsible individual must certify, with a signature, that the registered unlicensed individual performed the identified classes of work for the number of hours entered on the form during the 12-month registration period.
- The registered unlicensed individual's signature on the form acknowledges agreement with the information verified by the employer

#### **QUALIFYING FOR A LICENSE EXAMINATION**
